LADY'S MOCCASIN-TYPE SLIPPERS

Knitted from old felt hats

MATERIALS.

2 Felt Hats.

2 No. 6 knitting needles.

TENSION. About $2\frac{1}{2}$ sts. to 1 inch.

ABBREVIATIONS. K.—knit, P.—purl, st.—stitch, dec.—decrease, inc.—increas(e)ing, beg.—beginning, ins.—inches, st. st.—stocking stitch. (1 row K., 1 row P.).

CUTTING THE FELT.

If the hat is blocked in one piece it is a straightforward cut round the edge of the brim to the centre of the crown as in photograph.

The felt should be cut slightly less than $\frac{1}{2}$ in. thick. It must be cut evenly as this tends to lessen the strain when knitting. There need be no waste of felt if the cutting is done correctly.

If the hat is made up in sections, unpick each piece carefully and round off any corners. It can then be cut as before.

When joining two pieces of felt tie the two ends together in a knot on the wrong side of the work. Tuck away the ends afterwards. Do not knit the felt tightly.

Slip the first stitch of every row to give a neat edge; with the exception of increasing and decreasing rows.

MAKE UP.

Press work with damp cloth and hot iron.

Join cast on and cast off edges of vamp, then stitch this round outer edge of the sole, with the join to centre front and the dark panel at centre back, arranging the straight side edge of the vamp at the top.

Now stitch the upper part into position, placing centre of the cast-on edge to the join in the vamp.

SMALLER & LARGER SIZES.

The felt fabric is extremely elastic and the instructions given will produce a slipper to fit sizes 4 to 6 inclusive. For a narrow foot, use needles one size smaller, for a very wide foot needles one size larger, adjusting the length if necessary, by working slightly more or slightly less as the case may be, wherever a measurement is stated.
